Family Newsletter

A message from Maira and Debra

Happy New Year! We hope you all had a happy and safe festive season. We had a lovely Christmas Day with many family and friends in to visit their loved ones and share time together on this special day. Santa was a welcome visitor with a special helper this year. Merlin our Dementia Therapy dog had a great time spreading the Christmas cheer to everyone and getting his photo taken with lots of our residents. If you think your loved one may have had a photo taken and you would like a copy please see Deb for this.

We have enjoyed a wonderfully hot summer like the ones we remember when we were growing up, with endless warm, still days. Even now that autumn is here it is still possible to sit outside in the shade of the trees in a gentle breeze with your loved one and watch the leaves beginning to fall. We have a sun umbrella to go in the table if you need it so please ask the staff.

We are sad to share the news that Maria Ylaran has moved on from her role as Clinical Manager of Admatha, but delighted to announce that Maira Lagumbay has taken over this important role. Our residents and family members know Maira well, as she has worked closely with Maria as a senior member of the Registered Nursing team for many

years. We extend our congratulations and best wishes to Maira in her new role, and fully support her as she leads Admatha forward into 2018 and beyond.

It's great to see so many family and friends looking at our Facebook page and "liking" the photos we are sharing of our residents involved in everyday homely activities such as gardening, folding washing, arranging flowers in a vase, putting up the Christmas tree and so on. If there is a particular activity that you think your loved one might enjoy please have a chat with us. We welcome feedback and the door is always open for you to talk things through.

We extend a very warm welcome to the new residents who have recently joined our Admatha family. It is lovely to have you with us!

We look forward to a wonderful year together.

IMPORTANT REMINDER

Please ensure that all items of value, especially hearing aids, dentures, glasses and jewellery, are fully insured. Unfortunately we do not take responsibility for loss or damage which may occur.

We advise against the purchase of delicate or woollen items which may be damaged during the laundry process.

A time of renewal

Andrew Sheard

Making pikelets for afternoon tea brings back happy memories for us all

I have been enjoying coming to Admatha regularly and talking recently with new staff about our Vision and Values. This is an important opportunity to make a personal connection with each person who has chosen to work for us, and gain an understanding of the very special qualities which have drawn them to the work we do. Home and family are values which consistently shine through, and which we all share. Our Vision and Values links closely with our flagship 'Best Friends Approach to Care' course. This encourages all those who work for us to draw on their personal experiences of close and loving relationships in their approach to care. We are in the process of renewing our Vision and Values at present to ensure

that they are current and fit with the needs of residents, families and staff in a rapidly changing world. Input from the staff team has been sought to include everyone in this important process.

You may have noticed a change of uniforms over the past few months. Our staff are now able to choose between a range of different colour tops. This has been done to minimise the institutional associations of a 'uniform' and encourage people to express their individual preferences and personalities at work.

On a personal note, this year will be a special one for my family with the expected arrival of a new baby in March, so for us this is a time of preparation, anticipation and renewal.

Questions we are sometimes asked

Recently, we have introduced Home Assistant/Housekeepers to help with the cleaning and laundry. We are still in the process of 'bedding in' this new system, but are confident that it will have the intended effect of freeing up our experienced caregivers to devote more time and energy to resident care. We are working closely with our staff team to monitor and refine duty lists as we move forward through the change process.

In the hot summer months, many families request air conditioning in our homes. However, there are disadvantages to this. The tendency would then be to close doors and windows, which is not our preference in summer time. It would be difficult to set the temperature to suit everyone's needs, as each person experiences temperature differently. Older people tend to feel cold more than heat, especially those who are relatively sedentary. We prefer to position those who prefer to be cooler in a breeze by

a window or door or outside in the shade. Staff are reminded to dress residents appropriately and encourage them to drink plenty on hot days.

We are often asked why we discourage live television in our lounges for people with dementia. There are good reasons for this. Some people who have dementia struggle to differentiate between what is real and what is not. This can sometimes trigger distress if programmes depicting violence or destruction are shown. Also, people with dementia often struggle with a number of stimuli at one time, and also with distracting background noise. For this reason we prefer to encourage focused social interaction and participation in familiar homely activities. It is important for people with dementia to have times of quiet. Like many of us, they need peaceful times of reflection each day.

Families are welcome to install a TV in their loved one's bedroom if they wish.

Our therapy dog Merlin is a great favourite with residents and is often downstairs taking part in the life of our Admatha family

The Best Friends approach to care

You may have heard us mention the Best Friends Approach to Care, our flagship programme that underpins our vision and values. Every member of our team participates in the course soon after joining us.

During the course we talk about our own best friends. Each member of the group is invited to share what their best friend offers them or what special quality he or she has. People share the things they most treasure about the special people in their lives, such as: she is always there for me ... he accepts me no matter what ... I can talk with her about anything ... he knows much about me and sometimes knows

what I need without me having to ask ... she forgives my mistakes ... he makes me laugh.

We then go on to talk together about how we can be like a very best friend to our residents. To do this we are totally accepting of our residents, being there for them no matter what. The German root of the word friendship means 'place of high safety'. We feel very safe, warm and loved when with a wonderful friend.

The friendship of our residents is a reciprocal gift which brings joy, understanding and acceptance to our relationships with one another here in our home.

A happy afternoon making plum jam together

Podiatry service strongly recommended

Caring for our residents' feet is more specialised than you may first think. The risks of infection and pain caused by incorrect technique and the importance of assessment by a professional are important issues to consider in relation to the feet of our residents.

For this reason our facilities have accessed specialised podiatry services to assist staff to care for residents' feet.

There are many benefits to making use of a specialist podiatry service. The following services are provided:

- General toenail care
- Treatment of painful or problem toes
- Removal of corns or calluses
- Overall assessment of foot health, especially with regard to

circulation and nerve function

- Specialised care of 'at risk' feet, e.g. diabetic care.

This specialised care is arranged for residents, and the account passed on to the resident (with the exception of diabetic foot care). Generally podiatrists see our residents every six to eight weeks. We believe that this is well worth the extra fee, as many elderly people suffer from painful or problematic feet.

If you choose not to make use of this service, we cannot take responsibility for cutting residents' toenails. This will need to be organised by the family, and we will request that a disclaimer is signed and kept on the resident's file to that effect.

Please discuss this with the registered nurse if this is the case.

Making chocolate-dipped banana and strawberries

Admatha has a Facebook page!

We warmly welcome visits, 'likes', questions and ideas from the families and friends of our residents.

Concerns and complaints: When things don't go according to plan

As we strive each day to provide the very best possible care to our residents, it can sometimes be hard to identify where changes are required to improve upon the service that we provide.

We would like to say a special thank you to each and every one of you for providing us with feedback, either positive or negative. We really appreciate your honesty and the time it takes to let us know when things have not gone quite the way you would wish. Your concerns and complaints provide the opportunity for us to pass on this feedback to our staff and take corrective action when needed, as part of our ongoing quality improvement programme.

Please remember that our door is always open. You are welcome to pop in for a cup of tea and a chat.

Flu vaccination

As the evenings grow cooler we ask you to begin thinking about the annual influenza vaccination which is offered free of charge to all residents.

We strongly advise EPOAs to take advantage of this to protect their loved one from the serious effects of the dangerous strains of influenza which are prevalent every winter.

Suggestions to improve our service are always welcome, either verbally or in writing. If you wish to make a complaint about something you are unhappy with, a Complaint Form should be used. The completed form can be given to any staff member, or put in our suggestions/complaints box.

Please ensure that any verbal complaint is made directly to either Maira or Debra. If they are not available then the complaint should be made in writing on a complaint form to ensure that it goes through the correct investigation and resolution process.

Advocacy Services (0800 555 050) is available to assist you if required.

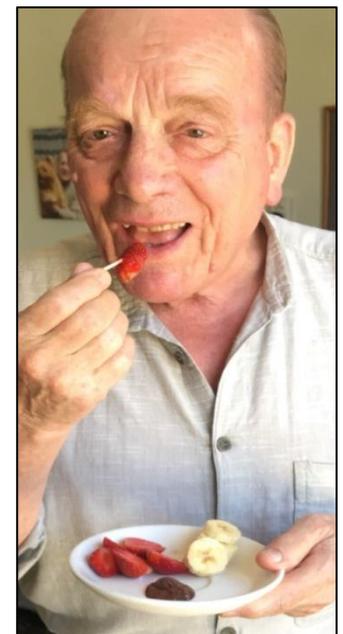

We always welcome your ideas and concerns, and your loved one will never be disadvantaged by anything you may share with us.

There is a very clear correlation between those residents who struggle with persistent ill health over winter, and those who did not have the flu vaccine.

Please choose to vaccinate this winter, and help your loved one stay well!

It takes skill and a delicate touch to slice a banana perfectly!

The taste of summertime!

Second Point of Contact: Sometimes, for a variety of reasons, there may be a need for a second point of contact to discuss an issue with. Vicky Jones, our Operations Management Leader, is available Monday-Friday 8 a.m. to 4.30 p.m. to discuss any issues of concern. (03) 385 1286 x 8 or vicky@dementiacarenz.co.nz

Admissions and Funding Navigator: Deidre Hickey, our Admissions and Funding Navigator, is available to help you through the unfamiliar and sometimes confusing admission and subsidy application process. Deidre can be contacted at deidre@dementiacarenz.co.nz.
